Jackson County Schools

STUDENT CODE OF CONDUCT 2021-2022

The purpose of the Board of Education is to provide for an orderly process of education that will foster the proper environment providing for the welfare and safety of all students attending the Jackson County Schools. Education is the primary goal of our system. However, when student behavior comes in conflict with the rights of others, corrective actions may be necessary for the benefit of all.

Students are governed by the policies, regulations, and rules of the Jackson County School System. These are applicable at school or on school property at any time, on the way to and from school, on the school bus and at school bus stops, and at any school-related function or activity on or off school premises. Governing rules, regulations, and policies are published and disseminated to school personnel, parents, and students.

Major offenses including, but not limited to, drug and weapon offenses can lead to schools being named as an Unsafe School according to the provisions of State Board of Education Rule 160-4-8-.16 Unsafe School Choice Option.

The superintendent shall take the appropriate action to assure the establishment and administration of procedures necessary to provide for effective pupil control and discipline. Students and parents should understand that compliance with the rules in the Code of Conduct is mandatory.

LEGAL AND ADMINISTRATIVE REQUIREMENTS

DUE PROCESS

Due process will include appropriate hearings and reviews and, in all cases, the rights of individuals will be ensured and protected. A meeting for an out-of-school suspension involves a conference between an administrator, student, and/or teacher, and parent. A hearing for an expulsion or alternative placement will be formally conducted following the procedures mandated by the Jackson County Board of Education. Jackson County School System Procedures for Implementation of IDEA Regulations Related to Student Discipline are on file in each principal's office and available to parents.

STUDENT RIGHTS AND RESPONSIBILITIES

A student has full rights and citizenship as defined by the Constitution of the United States and assumes the responsibility to take actions relative to this Constitution, the laws of the State of Georgia, and the policies, rules, and regulations of the Jackson County Board of Education.

STATEMENT OF ELEMENTARY SCHOOL VIOLATIONS

When an elementary school student below grade 6 or age 12 is in violation of student discipline procedures and the prescribed disposition cannot be applied, the disposition will be left to the discretion of the principal.

DISCIPLINING FOR OFF-CAMPUS MISCONDUCT

Students may be disciplined for any off-campus behavior which could result in the student being criminally charged with a felony and which makes the student's continued presence at school a potential danger to persons or property at the school or which disrupts the educational process.

STATEMENT OF NON-DISCRIMINATION

It is the policy of the Jackson County Board of Education not to discriminate on the basis of sex, race, color, age, disability, religion, or national origin in its educational programs, activities, or provision of services. Complaints regarding discrimination can be processed according to guidelines found in the school student handbook or in the principal's office or the office of the Jackson County Board of Education.

STATEMENT OF AUTHORITY OF PRINCIPAL

The principal is the designated leader of the school and, in collaboration with the staff, is responsible for the orderly operation of the school. In case of discipline violations not covered by specific disposition in this Code of Conduct, the principal may enact corrective measures which he or she feels are in the best interest of the school and the student involved. The authority of the principal extends to students who are on school property, on the way to or from school or a school function, at a school bus stop, and at any school function or activity. Based on circumstances of the incident, or the disciplinary record of the student involved, the principal may refer any matter under this paragraph (including any violation of the system or school Code of Conduct) to a disciplinary hearing.

DRUG/ALCOHOL POLICY FOR STUDENTS

Student use of illicit drugs and unlawful possession and use of alcohol are wrong and harmful. Violations of the drug/alcohol policy for students can result in serious disciplinary consequences, up to and including expulsion and referral to legal authorities for prosecution. Each Jackson County School is designated as a Drug Free School Zone. Violators will be prosecuted to the full extent of the law.

THREATS OF VIOLENCE

It is the policy of the Jackson County Board of Education to take all reasonable steps to provide a safe environment for students and staff. To that end, any threat by any individual directed toward another which if carried out would pose a potential danger to the life or safety of students and/or staff will be regarded as a serious matter. All threats of violence will be taken seriously, will subject the offender to disciplinary action, and may be reported, when appropriate, to law enforcement officials.

BULLYING PROHIBITED

The Jackson County Board of Education believes that all students can learn better in a safe school environment. Behavior that infringes on the safety of students will not be tolerated. Bullying, as the term is defined in Georgia law, of a student by another student is strictly prohibited. Such prohibition shall be included in the Student Code of Conduct for all schools within the school system.

Bullying is defined as an act that is:

- (1) Any willful attempt or threat to inflict injury on another person, when accompanied by an apparent present ability to do so;
- (2) Any intentional display of force such as would give the victim reason to fear or expect immediate bodily harm; or
- (3) Any intentional written, verbal, or physical act, which a reasonable person would perceive as being intended to threaten, harass, or intimidate, that:
 - a. Causes another person substantial physical harm within the meaning of

Code Section 16-5-23.1 or visible bodily harm as such term is defined in Code Section 16-5-23.1;

- b. Has the effect of substantially interfering with a student's education;
- c. Is so severe, persistent, or pervasive that it creates an intimidating or threatening education environment; or
- d. Has the effect of substantially disrupting the orderly operation of the school.

The term applies to acts which occur on school property, on school vehicles, at designated school bus stops, or at school related functions or activities or by use of data or software that is accessed through a computer, computer system, computer network, or other electronic technology of a local school system. The term also applies to acts of cyberbullying which occur through the use of electronic communication, whether or not electronic act originated on school property or with school equipment, if the electronic communication (1) is directed specifically at students or school personnel, (2) is maliciously intended for the purpose of threatening the safety of those specified or substantially disrupting the orderly operation of the school, and (3) creates a reasonable fear of harm to the students' or school personnel's person or property or has a high likelihood of succeeding in that purpose. Electronic communication includes, but is not limited to, any transfer of signs, signals, writings, images, sounds, data or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic, photo electronic or photo optical system.

Procedures may be developed at each school encouraging a teacher or other school employee, student, parent, guardian, or other person who has control or charge of a student, either anonymously or in the person's name, at the person's option, to report or otherwise provide information on bullying activity. Any teacher or other school employee who, in the exercise of his/her personal judgment and discretion, believes he/she has reliable information that would lead a reasonable person to suspect that someone is a target of bullying is encouraged to immediately report it to the school principal. Any report will be appropriately investigated by the administration based on the nature of the complaint in a timely manner to determine whether bullying has occurred, whether there are other procedures related to illegal harassment or discrimination that should be implemented and what other steps should be taken. Any report of retaliation for reporting bullying will also be investigated and addressed as called for in this policy and in accordance with school procedures.

Acts of bullying shall be punished by a range of consequences through the progressive discipline process, as stated in the Code of Conduct. However, upon a finding by the disciplinary hearing officer, panel or tribunal that a student in grades 6-12 has committed the offense of bullying for the third time in a school year, the student shall be assigned to an alternative placement.

Upon a finding by a school administrator that a student has committed an act of bullying or is a victim of bullying, the administrator or designee shall notify the parent, guardian, or other person having control or charge of the student by telephone call or through written notice, which may be done electronically.

Students and parents will be notified of the prohibition against bullying and the penalties for violating the prohibition by posting information at each school and by including such information in the student/parent handbooks.

STUDENT PEER SEXUAL HARASSMENT

Student reports of sexual harassment by other students will be taken seriously and dealt with in a firm and sensitive manner. Such incidents will not be tolerated since they lead to the existence of a hostile and uncomfortable school environment. Student reports of sexual harassment by peers should be referred to school administrators for disciplinary action. Based on the circumstances, administrators will determine the course of action and consequences, including the possibility of making reports to appropriate legal authorities.

LOCKERS, FACILITIES, CAMPUSES SUBJECT TO SEARCH

All lockers, desks, book bags, school facilities, and school campuses are subject to inspection and search by school officials at any time. Metal detectors or dogs specifically trained to detect prohibited or illegal items such as weapons or drugs may be used at school or any school function, including activities that occur outside of normal school hours or off the school campus at the discretion of administrators. Searches of individual students may also be conducted at any time when school employees have reasonable suspicion that the student is in possession of an item that is illegal or against school rules.

VEHICLES SUBJECT TO SEARCH

Vehicles driven to school by students and parked on campus are subject to search by school authorities and/or the school's designees without any further notice to, or the consent of, the owners or operators of such vehicles. Such search may be conducted without warrant for any reasonable suspicion. Search of the vehicle includes all compartments and components thereof. Once search begins, the person in control of the vehicle will not be permitted to remove it from the premises during the reasonable duration of the search.

STANDARDS OF BEHAVIOR

The Jackson County Board of Education is committed to providing a safe, orderly, and productive learning environment for all students. The following Standards of Behavior have been adopted to reflect the types of conduct that students will be expected to demonstrate.

Standards of Behavior for Elementary School Students

Students should:

- (1) Be considerate and respectful of others. Follow the Golden Rule: "Do unto others as you would have others do to you."
- (2) Attend school daily, arrive on time, and remain at school until dismissal time.
- (3) Come to school ready to learn. Bring all classroom materials and supplies. Pay attention, and do all your work.
- (4) Behave well in order to make school a positive place for learning.
- (5) Show respect and care for school property, and the property of others.
- (6) Join in school related activities and/or community sponsored programs, and show good behavior at these events.
- (7) Avoid using foul language and making threats.
- (8) Avoid bullying others.
- (9) Do not have weapons of any kind, real or otherwise, on any school property. If you know someone has a weapon, tell an adult immediately.
- (10) Be a good citizen by respecting the laws of the community, state, and nation.

Standards of Behavior for Middle and High School Students

Students should:

- (1) Participate fully in the learning process. Students should report to school and class on time, attend all regularly scheduled classes, remain in class and school until dismissed or excused for a legitimate reason, pay attention to instruction, complete assignments to the best of their ability, and ask for or indicate the need for help.
- (2) Understand that they will be held accountable for behavior that interferes with their own or other students' educational achievement. Students should know and avoid the behaviors prohibited by the Jackson County Schools Code of Conduct, take care of books and other instructional materials, and cooperate with others. Students should obey student behavior policies adopted by the Board of Education and student behavior rules established by individual schools.
- (3) Show respect for the law and for the knowledge and authority of teachers, administrators, and other school employees. Students must adhere to reasonable requests and/or directions, use acceptable and courteous language, avoid being rude, and follow school rules and procedures.
- (4) Recognize and respect the rights and property of the school, other students, and adults.

Behavior Support Process

The behavior support process is a mechanism for identifying and encouraging those behaviors and environmental factors that promote the positive emotional, mental, social, and educational needs of students. This process is designed primarily to provide services to chronically disruptive students or to students who have committed a single disciplinary infraction of a serious or severe nature; however, it may be used for any student at the discretion of school administrators.

The Student Support Team (SST) serves as the core component of the behavior support process. The SST utilizes an interdisciplinary team approach, and provides supports and services that are customized to meet the individual needs of students. The composition of the behavior support team will vary based on the needs of the referred student, but typical representation would include the parents, teachers, school counselor and/or social worker, an administrator, and representatives from other agencies as deemed appropriate.

The process seeks to organize the school, school system, parents, and applicable community efforts into a comprehensive framework for providing support for students. A major aspect of the process is its prevention orientation, aimed at providing proactive steps to help students avoid negative behaviors initially as well as helping troubled students minimize future difficulties.

As part of the behavior support process and in compliance with the Chronic Disciplinary Problem Students Act, the assistance of parents will be actively sought in cases where students have exhibited continually disruptive or inappropriate conduct in school. In such instances, parents may be invited to observe the student in a classroom situation and/or requested to attend a conference with school officials to devise a disciplinary and behavioral correction plan.

A major purpose of the process is to provide support strategies that emphasize and build on strengths of students rather than those that focus solely on behavioral problems. Portions of behavior support process recommendations that would address this purpose could include, but are not limited to, the following:

- (1) helping students establish individual goals, relevant benchmarks, and a timeframe for attainment;

- (2) service learning projects;
- (3) development of problem-solving skills;
- (4) leadership development;
- (5) mentoring/peer mentoring;
- (6) conflict management.

Finally, the behavior support process seeks to integrate school-based and community-based resources in order to meet the needs of students. Potential sources for support could include, but are not limited to, the following:

- (1) individual or group sessions with school counselor/social worker;
- (2) testing and support services through school psychologist and/or school psychologist;
- (3) access to peer mediation at the middle and high school levels;
- (4) referral to challenge groups at the high school;
- (5) access to assistance from school resource officers in the high schools;
- (6) involvement with appropriate community resources such as DFACS, law enforcement, juvenile court services, and mental health agencies.

Progressive Discipline Process

Students are governed by the policies, rules, and regulations of the Jackson County School System. These are applicable at school or on school property at any time, on the way to and from school, on the school bus and at school bus stops, and at any school-related function or activity on or off school premises. Students who choose not to conduct themselves within appropriate and expected guidelines should understand that they are subjecting themselves to possible disciplinary action.

Each incident of inappropriate behavior in the school setting is unique, and the disciplinary consequences imposed will reflect consideration of the nature of the incident and a number of factors specific to the student involved. When considering the discipline to be imposed, teachers and administrators will take into account any and all relevant factors to assure that the degree of disciplinary action is in proportion to the severity of the misbehavior. When appropriate and applicable, such factors may include, but are not limited to, the following:

- (1) the student's prior discipline history;
- (2) seriousness of the offense;
- (3) degree of premeditation, impulse, or self-defense;
- (4) age and/or disability;
- (5) strength of evidence;
- (6) remorse;
- (7) the student's attitude and willingness to cooperate.

Due process procedures required by federal and state law will be followed in the disposition of all disciplinary cases.

Parental Involvement Process

Parents, guardians, teachers, and administrators must work together to improve and enhance student behavior and academic performance, thereby assuring positive, orderly, and productive learning environments in all Jackson County Schools. In an effort to achieve that goal, parental involvement will be requested and encouraged in the student discipline process in at least two ways:

- (1) The assistance of parents will be actively sought in cases where students have consistently exhibited disruptive or inappropriate conduct in school and where called for in the code of conduct when students have committed a single disciplinary infraction of a serious nature.
 - (2) When a student desires to withdraw from school, he/she must have written permission of his/her parents or legal guardian if under the age of eighteen prior to withdrawing. Prior to accepting such permission, a school administrator will have a conference with the student and parents/legal guardian within two school days of receiving notice of the intent of the student to withdraw. The purpose of the conference is to share with the student and parents/legal guardian educational options available and the consequences of not earning a high school diploma.
 - (3) The General Assembly of Georgia requires that this code of conduct include language encouraging parents and guardians to inform their children on the consequences, including potential criminal penalties, of underage sexual conduct and crimes for which a minor can be tried as an adult.

DRESS CODE

Students are to dress appropriately for school. Any attire that distracts from the learning environment is not permitted. Modesty, safety and cleanliness are our goals. Each school communicates details of its dress code.

BUS BEHAVIOR

Riding a school bus is a privilege for students in Jackson County Schools, afforded only to those who demonstrate appropriate bus behavior. The privilege may be revoked for those who choose not to abide by the standards of bus behavior established by the Board of Education.

The bus driver is charged with maintaining order on the school bus. The driver may assign specific seating arrangements if necessary. Students violating bus rules will be reported to the school principal for appropriate disciplinary action, including, but not limited to, alternative seating arrangements, ongoing parental involvement and suspension from the bus.

Students shall be prohibited from the following on the school bus:

- a. Physical Violence
- b. Bullying
- c. Physical assault or battery of others
- d. Verbal assault of others
- e. Disrespectful conduct toward the driver or others
- f. DEFINITIONS

1) IN-SCHOOL SUSPENSION

In-school suspension refers to removal of a student from class or classes and assignment to the in-school suspension at a Jackson County high school or middle school. A student on in-school suspension also is suspended from all school-sponsored competitions and/or performances; however, the student may continue to practice for upcoming extracurricular activities and/or performances. In situations that are extreme or consistently prolonged, an elementary school student may be assigned to the middle school in-school suspension program.

2) SATURDAY SCHOOL

Saturday school refers to a rigidly controlled environment supervised by certified school personnel that is used in lieu of in-school or out-of-school suspension for some offenses. The program is held on designated Saturdays from 8:30 a.m. until 12:30 p.m. During that time, students are required to work on academic assignments or to perform designated tasks around the campus.

3) OUT-OF-SCHOOL SUSPENSION

Out-of-school suspension refers to removal of a student by the school administration from the school campus and exclusion from all school-sponsored activities for not more than 10 school days. A student who has

been suspended is not permitted on the school campus for any reason for the duration of the suspension. In order to be readmitted at the conclusion of the suspension, the student must be accompanied to school by his/her parent/legal guardian. *It is the student's responsibility to make up missed classwork, assignments, and/or exams within a time period equivalent to the number of days absent.*

4) ALTERNATIVE PLACEMENT

Alternative placement refers to a placement that will make the regular school environment safer and more productive. Chronically disruptive students, students determined to have committed violations of the Code of Conduct, or students who are deemed likely to benefit, academically or otherwise, may be moved to an alternative educational setting to receive their free and appropriate public education. A student who has been placed in an alternative setting for disciplinary reasons is not permitted on the school campus and is not permitted to attend extra-curricular events or activities related to the regular school program. Students will be assigned an alternate location within the district in order to complete the specific state-mandated assessments associated with their coursework.

5) EXPULSION

Expulsion refers to the removal of a student from the school district for more than 10 school days, following procedures mandated by the Board of Education. A student who has been expelled is not permitted on the school campus for any reason for the duration of the expulsion. In order to be readmitted after expulsion, the student must be accompanied to school by his/her parent/legal guardian.

6) PERMANENT EXPULSION

Permanent expulsion refers to the permanent removal of a student from all Jackson County schools, following procedures mandated by the Board of Education.

7) ASSAULT

The attempt to commit a violent injury to another person.

8) BATTERY

Intentionally making physical contact of an insulting and provoking nature.

9) EXTORTION

To obtain money, goods, or force unwilling acts from someone by violence, threats, or misuse of authority.

10) THREATS

The expression of a deliberate intention to cause harm or pain. Any threat by an individual directed toward another, which if carried out would pose a potential danger to the life or safety of students and/or staff is a violation of this Code of Conduct and will be punished accordingly.

11) DETENTION

A requirement that, after proper notification, a student attends school before or after regular hours. Parents are responsible for transportation.

12) ABUSIVE SUBSTANCES

A student shall not possess, sell, give to another student, use or be under the influence of any alcoholic beverage, inhalant, marijuana, unauthorized or illegal drug, intoxicant, or any substance represented to be, or reasonably appearing to be, such a beverage, drug, or intoxicant while in attendance at school or while attending or participating in any school function or school-sponsored trip. Use as directed of a prescription drug in accordance with the board of education policy regarding prescription medication and as authorized by a physician for the student shall not be considered a violation of this policy.

13) DISCIPLINE HEARING

The discipline hearing addresses serious discipline offenses where alternative placement or expulsion may be considered. The decision of the hearing shall be based solely on the evidence received at the hearing, including any evidence presented by either party relevant to the appropriate punishment to be imposed. The hearing will be conducted by an impartial hearing officer and/or tribunal hearing panel who will consider all of the evidence and make a decision regarding appropriate punishment. Discipline hearings may be waived if mutually agreed upon by the school administration, the parent/guardian and the school system hearing officer.

14) PHYSICAL VIOLENCE

Intentionally making physical contact of an insulting or provoking nature with the person of another; or intentionally making physical contact which causes physical harm to another unless such physical contacts or physical harms were in defense of himself or herself.

CLUBS/ORGANIZATIONS

School sponsored clubs (excluding competitive interscholastic activities or events) are those under the sponsorship, direction and control of the school that organize and meet for common goals, objectives and purposes. State law requires that parents have the right to withhold permission for their students to participate in any designed school sponsored club or organization. A list of school sponsored clubs in operation this school year, their purpose, faculty advisor and a description of past or planned activities is included as an addendum to this code of conduct. You, as the parent/guardian, have the right to withhold in writing your permission for your student's participation in any club or organization. For your convenience, a form is included with this code of conduct if you do not wish for your student to participate in the club you have designated on the form. If a club is added during the school year, you will be provided information on the club and your written permission will be required prior to your student's participation.
